ANATOMIK PARK

THE HUMAN BODY FUNFAIR

Explore, play and discover the secrets of your body!

ANATOMIK PARK is a one-of-a-kind interactive exhibition that transforms the discovery of the human body into **an unforgettable fairground adventure**.

Drawing on the excitement and energy of a traditional funfair, the exhibition **combines immersive design**, **hands-on challenges**, and **engaging scientific content** to create a playful experience where visitors learn through action, exploration, and fun.

Across **12 interactive attractions**, visitors put their senses, reflexes, coordination, and perception to the test while discovering **the remarkable capabilities of the human body**.

Self-guided and highly adaptable, **ANATOMIK PARK** is designed to integrate seamlessly into museums, science centers, and cultural venues, offering a turnkey exhibition that appeals to visitors of all ages.

☺ Suitable for all ages, including schoolchildren and families, ages 6 and up.

→ Objectives:

- **Discover how the human body works** by exploring its main systems, how they interact, and how the body changes and adapts throughout life.
- **Experiment with your own body** through hands-on challenges that test your senses, coordination, reflexes, balance, and perception, encouraging learning through action and exploration.
- **Explore the extraordinary abilities of the human body** through surprising records, fascinating facts, and scientific discoveries that reveal the complexity and incredible capabilities of our anatomy.

→ 12 interactives and thematic attractions:

★ BOOM BOX★
Capture your heartbeat and match its rhythm to a well-known piece of music.
Heart rate – Circulatory system

★ CRAZY BINGO★
Challenge other players in an interactive bingo game and discover fascinating facts about human anatomy.
Anatomy – Nutritional functions

★ OS'COURT ★
Help Oscar find the missing bones of his skeleton before it's too late!
Bones – Joints - Muscles

★ CELL'EBRATE ★
Based on the game Guess Who?, uncover other players' mystery cell by asking the right questions!
DNA – Genes - Chromosomes

★ DR ANATOMIK ★
Inspired by the game Operation, step into the shoes of a surgeon and take on a high-precision game.
General anatomy – Vital functions

★ LIGHTNING FAST★
Work as a team and compete in a reflex trial: are you quick enough to follow the flashing signals?
Nervous system – Muscular system

★ SUPER SWIMMER ★
Guide a sperm cell through obstacles and be the first to reach the egg.
Fertilisation – Reproductive system

★ STEP RIGHT UP★
Put your body into action and take on a challenge that will test your balance.
Muscles – Joints – Eyesight – Inner ear

★ MEMORY POKER ★
Put your memory and concentration to the test by remembering as many card sequences as possible
